To whom it may concern

Certificate of appreciation.

This certificate is awarded to AFRIKSOL INDUSTRIE in recognition of their excellent performance during the insulation and scaffolding works for the ALSTOM POWER SYSTEM/STEG Combined Cycle Plant Project in Ghannouch, Tunisia. The scope of work included 13000 sq.m of hot insulation, including piping, equipments and accoustic insulation.

Despite the confusion that has affected Tunisia during this period, AFRIKSOL INDUSTRIE has executed all works in a very efficient and professional manner to the entire satisfaction of KAEFER and in total conformity to project requirement.

AFRIKSOL INDUSTRIE's representative on site was very cooperative. AFRIKSOL INDUSTRIE has deployed highly competent and versatile craftsmen, well equipped with insulation machinery and workshop on site.

In appreciation of the excellent performance of AFRIKSOL INDUSTRIE, we highly recommend the Company for similar jobs.

We wish AFRIKSOL INDUSTRIE all success in their future projects.

Gérard Pichereau

North Africa Manager
